Toro ultra blower vacuum manual

When using electrical equipment, basic precautions should be followed, including: READ ALL INSTRUCTIONS BEFORE USING A VAC/BLOWER WARNING — To reduce the risk of fire, electric shock, or injury, follow these safety guidelines. To ensure maximum safety, best performance and to get knowledge of the device, it is essential that you or any other operator of the device read and understand the contents of this manual before operating the device. Pay special attention to the safety warning symbol which means caution, warning or dangerous personal safety instructions. Read and understand the tutorial because it has to do with safety. Non-compliance with these guidelines can lead to personal injury, fire risk, or electric shock. Don't leave the device plugged in. Unplug the socket when not in use and before maintenance. WARNING- To reduce the risk of electric shock, do not use the device on wet surfaces. Don't let it rain. Store in the house. Do not allow the use of the device as a delicacy. Do not use it near children. Do not allow your child to use the device. Use the device only as described in this user guide. Use only the manufacturer's recommended attachments. Dress properly. Keep hair, loose clothing, fingers, and all parts of the body out of holes and moving parts. Note the location of the blower and the air inputs during operation. Loose clothing, jewelry and hair can be drawn into the intakes (refer to the following figures) and can lead to personal injury. Always wear significant footwear, trousers, and eye protection. Be cautious — The moving unit — does not operate the device without air input protection (bottom input cover) in place. Reference set for proper assembly instructions. Do not use a device with damaged wires or plugs. If it does not work as it should, has been dropped, damaged, left outdoors, or dropped into the water, returned to a service agent. Do not pull or carry the device with wires, use the wire as a handle, close the door on the wire or pull the cord around sharp edges or angles. Keep the wire away from the hot surface. Do not unplug the device by pulling the cord. To unplug, grab the plug, not the cord. Do not handle plugs or devices with wet hands. Do not put any objects into the holes. Do not use the device with any blocked openings; Keep it free of dust, lint, hair, and anything that can reduce air flow. Turn off all controls before unplugging your device. Use extra care when cleaning on the stairs. Do not use the device to vacuum flammable or flammable liquids, such as gasoline, or use in areas where they may be available. This device is supplied with double insulation. Use only identical replacement parts. See instructions for serving dual insulation devices. Do not vacuum anything that is burning or smoking, such as cigarettes, matches or ash there are no vacuum bags or appropriate attachments in place.
